PICTURE SHOWS OF DISTRICT SCORED

Columbia Heights Committee Find Dangerous Conditions in Many Theaters.

Patrons of motion picture theaters in the District of Columbia in general and Columbia Heights in particular run great danger of their lives in case of a panic, according to the report of the sement committee of the Columbia Heights Citizens' Association, which has made an exhaustive investigation of the subject.

The amusement committee, of which Dr. Benjamin F. Gibbs is chairman, made its report to the association at made its report to the association at the monthly meeting held last evening in St. Stephens' Hall. The report point-ed out in particular that children, who visit the nickleodens unaccompanied by their parents, take serious risks of their lives in case of fire or panic.

Standing Room Crowded.

The committee made it clear that me the buildings, or the general construction, should a fire occur. In every instance it was found that the fire regulations had been strictly compiled with 7:39 p. m.

as regards construction, and the filmoperating rooms are fireproof and constructed of heavy metal or asbestos. It
was conditions which would prevent an
easy and quick exit of the audience in
case of danger.

The greatest danger in practically
every motion picture theater in
Washington, according to the report, is the practice on the part of
the management, after the seats are
all filled, of permitting other patrons
to crowd the space back of the rails
and seats awaiting an opportunity to crowd the space back of the rails i seats awaiting an opportunity to get the seats when they are vacated.

This practice, it was pointed out, would make it practically impossible for those occupying seats to get out by the front doors in case of stampede or panic.

Found Useless Fire-Escape. he committee also reported that i

had found several of the doors marked with red lights as exits locked, and in ome cases where there were two swingng doors at an exit, one was found fastened. In one instance the exits were windows several feet from the ground, which, the committee said, would be impossible for a child to use in time of danger. It was stated sev-eral fire-escapes were found to be prac-

ral fire-escapes were found to be practically worthless.

The association instructed the secretary to forward a copy of the report to the District Commissioners, with the request that a thorough investigation be made at once of all motion picture shows in the District, and the defects corrected, so as to avoid the possibility of a repetition here of the recent New York disaster.

Catholics and Episcopalians Ho ld Ash Wednesday Services. Man Accused of Using Knife Is Fined

Twenty Dollars.

WASHINGTON TIMES BUREAU. ALEXANDRIA, VA. FEB. 5 The solemn season of Lent was ushered in this morning by Ash Wednesday services which were held at the Catholic and Episcopal churches of Alexandria. Alexandria's church-going population is largely made up of members of these two denominations and the Lenten season is observed here more generally than in other communities the State.

At. St. Mary's Catholic Church there were two services this morning. At 6:30 clock there was the first mass and at :30 the second mass, which was followed by the blessing and distribution of the holy ashes. Tonight, at 8 o'clock there will be another solemn service when the exercises of the Holy Way of the Cross, followed by the blessing of the holy sacrament, will take place.

Paul's Church, Richmond. At St. Paul's Church a series of Lenten serv-ices will be inaugurated on next Tuesday night and the first sermon will be preached by the Rev. Dr. Crawford, of the Theological Seminary.

In the police court today the trial of Marshall Cheshire, charged with at-tacking William F. Webster with a knife, was heard. Justice Ca posed a fine of \$20 on Cheshire.

Miss Josephine C. Fegan, of Washing ton, formerly of this city, and Zedekiah Mudd, a well-known grocer, of Alex-andria, were married last night at 7 o'clock in the parsonage of St. Mary's Chuch by the Rev. Father L. F. Kelly.

in police court, today. Mrs. Allison pleaded with Justice Caton to send her boy, Clarence, to the reform school. Young Allison had been arrested for taking a watch belonging to his mother, who stated that the boy was incorrigible and that he frequently gave her a beating. The boy begged so hard for another chance to reform, as he was too old to be sent to the reform school, that he was given an opportunity to that he was given an opportunity try and do better.

The concert last night by the Martha Washington Chapter, Daughters of the Eastern Star, was a pronounced suc-cess, the Young People's building being filled to overflowing. Among those tak-ing part were Miss Bertle Thompson, soprano: Miss Ruby Stanford, violinist;

Examinations Today For Assistant Chemists

Examinations will be conducted today and tomorrow by the Civil Service Commission for appointment to the of Congress."

J. Clinton Hiatt, chairman of the special committee appointed to appear before the Senate committee to urge an increase of the police force, said that Senator Gallinger had advised him the committee would be given a hearing during the present session of Congress.

In Indian agency physician, a preparator in horticulture, an assistant horticulturalist, a timber scaler and engineer who must also be a sawyer service, a surveyor for the General Land Office, a topographic draftsman, and a copyist topographic draftsman, all the positions pay in the neighborhood of \$1,200 per annum.

GENERAL SHERWOOD HEADS ATTACK ON

Democratic Caucus Is Asked to Prevent Appropriation for Mr. Craighill was the brother of the late Brig. Gen. William P. Craighill, U. S. A. He is survived by his wife and More Than One.

The war on battleships has begun earnest in the House. Gen, Isaac Sher wood, member of the House from the Ninth Ohio district, is stirring up the He has begun the circulation of a petition for a Democratic caucus to take up the question of economy in appropriations.

But, while it is to be a caucus for his purpose, it looks as if the question of what to do about battleship construction were uppermost, and as if the purpose back of the call for a caucus were to prevent authorization of construction of any new battleships at this session or at most to hold the number down to one, Chairman Burnett, of the Public Building Committee, is aiding Sherwood in his plan

General Sherwood has enough signa tures, so that a caucus is assured. On strong reason advanced for the appropriations threaten this year to be higher than ever before, that the Baltimore platform demands economy, and that something must be done to meet this demand.

May Endanger Building Bill. The solution of the situation, it being urged, can be found in refusing to authorize the construction of any new battleships of the dreadnaught

Fifteen River Passengers

Narrowly Escape Death

GALLIPOLIS, Ohlo, Feb. 4.—Fifteen passengers of the Pittsburgh and Cincinnati packet City of Parkersburg, had a narrow escape from drowning when that boat sank in the Ohlo river. The vessel struck Bear Trap pier, near liere, during a heavy snow storm, and went down a few minutes later.

The crew and passengers camped on the river bank until daylight. The City of Parkersburg was a new boat valued at \$35,000.

The fight may proceed to a point where the proposed public building bill will be endangered. But it has not yet reached that stage. That it will develop into an even more bitter controversy than arose last session over the naval building program now seems certain.

The result of the fight hast year was authorized and the probabilities are the House Naval Committee will favor two. It is certain the Senate will insist on two. If they could lop off battleships altogether, the opponents of the greater navy would score a victory from their standpoint and at the same time would hold down appropriations.

Many of the Democratis in the House rare going to be bigger than ever. They think that a Democratic House cannot afford to have this happen.

The sentiment against a big naval uilding program is strong in the 'I Say, Stranger!" to Be House and apparently is growing One reason for it is the conviction

NEWFIELD, N. J., Feb. 5.—To increase the efficiency of its service on the division which has headquarters at Caimden, the Pennsylvania railroad has issued the following order from the Camden office of the passenger train master:

"An employe on duty is forbidden to address a passenger or patron of the company as 'friend,' 'stranger,' 'comrade,' 'brother,' 'sister,' 'neighbor,' or by any other term of this character, when necessary if the passenger's or patron's name is not known use 'sir,' 'madam,' or 'beg pardon.'"

Done reason for it is the conviction of many members that present construction methods of the Navy Department are not up-to-jate.

Many feel that this Government manages somehow to be a few laps behind Germany and England in construction methods. Moreover, there is a lot of criticism under the surface of the ordinance. Lack of adequate auxiliaries is another thing criticized.

HEARING ON BILI

FOR REVALUATION

Senate Has Reported Measure Which "Has Teeth in It," Is Report.

Concerned over the prospects of an early passage of a railroad physical valuation bill, the carriers today, through former Senator Faulkner, asked to be heard before the Senate Interstate Commerce Committee. The committee heard the report of the subcom mittee, which has amended the bill as it was introduced by Congressman his home in Brightwood, were held this morning at the Nativity Church, Brightwood. Interment was private.

Adamson and as it passed the House, and then announced that a hearing would be granted Trightwood. would be granted Tuesday morning.

The committee declined to make the report of the subcommittee public. It is known, however, that the bill, as it has been amended in subcommittee, has teeth" in it.

La Follette's Hand Is Seen. Senator La Follette has had a hand in the shaping of amendments, and the indications are that, when the bill comes

out of committee, it will be an important and far-reaching measure. The railroads will seek to delay the reort of the committe on the bill and then to block it in the Senate at this

session.

It has already passed the House and it is highly important at this time because of the movement of the railroads for a general increase in rates. Senator La Follette is determined to press the bill for passage this session. In opposition to the railroad testimony against the bill Tuesday he will have experts present in favor of it.

Tries To Please Supreme Court. As amended, the bil seeks to meet the various decisions of the Supreme Court. Morever, it contemplates that the Interstate Commerce Commissio shall obtain data of every sort as to railroad values, but it does not prescribe just what particular valuation shall be taken as a basis for rate making.
This will obviate for the present

big controversy on the floor of the Sen-ate over propositions as to just what is the proper method to value a road as a basis for rates, leaving this problem for future adjustment, either by the commission or Congress, or possibly. ission or Congress, or, pe by the courts.
